ENTICE STEEL — COLOURWAY ENTICE-STEEL

Entice Steel is Panaz's lightest sheer at just 41g/m², from the Entice collection, woven from 75% FR polyester and 25% recycled FR polyester. Supplied wide width at 315cm in a cool steel grey tone, it's an ultra-fine voile for maximum light transmission, inherently fire retardant and made to measure.

FLAMMABILITY / FIRE PERFORMANCE
BS 5867 Part 2 : 2008

The UK classification for curtains, drapes and blinds in public buildings.

EN 13773

European burning behaviour classification for curtains and drapes.

IMO FTP Code 2010, Part 7

Marine certification for cruise, ferry and offshore interiors.

M1 (France)

This fabric achieves its fire performance through an applied flame-retardant treatment. Follow the stated care instructions — the treatment can be affected by incorrect laundering, and re-treatment may be required after cleaning.
