IN SITU — TULA FULL-DROP CURTAINS

Tula is a subtle coloured melange structure with a dry, wooly look and feel, from Vescom's contract curtain collection. Woven from a sustainable blend of 60% recycled FR polyester and 40% FR polyester, Tula brings the warmth and texture of wool styling to a fully fire retardant, made-to-measure curtain fabric. Its understated melange character suits hotel, healthcare and marine interiors that call for tactile depth without pattern, while the recycled fibre content supports sustainability commitments on commercial specification projects.

## FLAMMABILITY / FIRE PERFORMANCE

**BS 5867 Part 2 : 2008**
The UK classification for curtains, drapes and blinds in public buildings.

**EN 13773**
European burning behaviour classification for curtains and drapes.

**IMO FTP Code 2010, Part 7**
Marine certification for cruise, ferry and offshore interiors.

**DIN 4102**

**NF P92-503/507**

**NFPA 701**

**CAN/ULC S109**

**UNI VF 8456-8457**

**Übereinstimmung (Germany)**

The flame-retardant performance is inherent to the fibre, not a surface treatment. It cannot wash out or wear off over the life of the curtain, and requires no re-treatment. Fire certificates are issued with every order.
