

Zone Quarter arc

A quarter-circle sweep — a curved edge to a walkway, or a soft corner where a straight run would look severe.

Dimensions

Quoted by radius. The chord is the straight line across the opening, the sagitta the depth of the curve. All dimensions in millimetres, measured on the track centreline. Sizes shown are the standard range — other sizes made to order.

Track & curtain

Zone 28 — 28 mm round powder-coated aluminium, white or black. Hand-drawn, uncorded. Wave gliders strung at 80 mm, supplied fitted. Curtain shown for illustration, ordered separately from the CreateFR FR ranges.

Fixing

Suspended on 16 mm drop tubes at 1 m centres, or top-fixed to a solid ceiling on brackets at 500 mm centres — one at each end either way. Drawings show the top-fix positions.
